Valutazione: ☆ 4.3 (10)	**Info:** ★ 2 (6)	**Belay:** ★ 1.8 (9)

Avvertenzas:
inattivo: *Divieto di pesca a Berna Caso C* (annuale 01.01. - 15.07.)
Questo specchio d'acqua può essere utilizzato solo dal 16 luglio al 31 dicembre, in conformità con le norme di pesca del Cantone di Berna.

Specialità:
Ghiacciaio nel bacino idrografico,

Attrezzatura:
Corde: 2x30m

Sintesi: (traduzione alternativa)
Narrow slot canyon a few meters below the surface. Autumn canyon, very cold water.
Raw data import from Descente Canyons https://www.descente-canyon.com/canyoning/canyon/22570

Idrologia: (traduzione alternativa)
The catchment area appears small, but consists mainly of the north face of the Eiger and therefore usually has too much water or ice.

Accesso: (traduzione alternativa)
Wengernalpbahn to Alpiglen, note that there is another Alpiglen in Grindelwald on the other side of the Große Scheidegg.

Avvicinamento: (traduzione alternativa)
https://swisstopo.app/i/5/VVASGYRR

Giro: (traduzione alternativa)
The canyon quickly becomes very narrow.
Mostly just below the surrounding boulder fields and meadows.
Two higher steps (30m), one of which is the waterfall you passed on the access.
Many narrow climbing sections in the best rock.
Be careful with too much water, it is not only cold but also mostly compressed.

Ritorno: (traduzione alternativa)
Follow the hiking trail back to Alpiglen and take the train down to Grindelwald

Coordinate:
Inizio del canyon 46.5939 8.0113
Fine del canyon 46.5989 8.0114
Parcheggio in uscita 46.6226 8.0233
Punto di passaggio 46.6001 8.0019

Automatisch importiert von Schlucht.ch für Canyon Sandbach / Eigerwandschlucht, Wasserstand: "Minimal" Verankerungen: "OK, etwas nachgebohrt" Zu viert die Tour gemacht (icanyon). Die letzte Eindrücke liegt nun auf dem Grund der Schlucht und muss über klettert werden. Tour ohne Stirnlampe kein Problem. Eisbildung, alles sehr glatt, Becken Deckeleis. (Quelle: https://schlucht.ch/schluchten-der-schweiz-liste/1263-sandbach-eigerwandschlucht)

Automatisch importiert von Descente-Canyon.com für Canyon Sandbach Started early with the first train. The water flow increased a bit during the day with the melt, but it was still manageable. One bolt is missing right after the first 30m waterfall. We put a very badly placed Dyneema loop, but it would be nice to drill a new bolt (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22570/observations.html)

Some anchors could not be found. There were some with diameters of 6 to 8 mm that had been added. We fitted two belay stations with new ropes. We made it through the canyon to just below the last waterfall, but the path to the exit is missing there—it was washed away. You can still get out, though. The sky was cloudless, and we had a blast. Automatisch importiert von Schlucht.ch für Canyon Sandbach / Eigerwandschlucht, Wasserstand: "Mittel" Verankerungen: "Gut, ein Maillon an Bohrhaken montiert und ein Bohrhaken gebohrt." Schöne eingeschnittene Schlucht. Es hat nicht mehr viel Schnee oder Eis wo man unten durch geht, abseilt. (Quelle: https://schlucht.ch/schluchten-der-schweiz-liste/1263-sandbach-eigerwandschlucht)

A beautiful, narrow canyon with several places to downclimb. There are several slings used for rappelling that are still in good condition but could use replacing again. Two bolts have been re-drilled. (traduzione alternativa)

Automatisch importiert von Schlucht.ch für Canyon Sandbach / Eigerwandschlucht, Wasserstand: "Wenig" Verankerungen: "Sandbach Sup. es fehlt eine M10 Platte mit Mutter, Stift vorhanden, sonst ok, unterer Teil ok, ev. sollten die Schlingenstände gelegentlich erneuert werden. " Ganze Tour zu zweit begangen. Sup. Einstieg 2120 genommen. erster Abseiler ca. 20m dann über Band links raus kraxeln, Schneebrücke ist eingestürzt. Viel Eis am Grund, gut begehbar. Objektiv nicht ganz unproblematisch. sonst super. Unten raus unter dem Eis durch ist Höhlenforschen angesagt. Etwas Eisbildung durch Spritzwasser. in der gesamten Schlucht. Landschaftlich ein Leckerbissen. (Quelle: https://schlucht.ch/schluchten-der-schweiz-liste/1263-sandbach-eigerwandschlucht)

Low water level, fair anchors. Some webbing is a bit old, but doable. Some of the small rappels can be climbed down.

È un torrente superlativo, anche se non sono un grande amante di questo genere di canyon così stretti è una vera e propria chicca ed era da un po' xhr volevamo entrarci. Abbiamo aggiunto un punto, è super consigliato portare un trapano perché ogni anno con lo scioglimento viene portato via wualcosa, nel complesso neanche complesso.
