Automatisch importiert von Descente-Canyon.com für Canyon Teinte Bel encaissement et canyon très bien équipé. Attention les vasques sont remplies de larves de salamandres, il faut les éviter autant que possible. Dans les chemins aux abords du canyon il y a également des salamandres, on a vite fait de poser le pied dessus. Automatisch importiert von Descente-Canyon.com für Canyon Teinte Un nombre incalculable de salamandres coincées dans les différents vasques accessibles depuis le bas du canyon. L'observation s'est donc transformée en sauvetage de salamandres. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2882/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Teinte Malheureusement déjà sec, faisable sans combi. 2 vasques d'eau très claire imposent néanmoins de se mouiller+/- jusqu'aux genoux (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2882/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Teinte Canyon probablement sympa à faire lorsqu'il y a de l'eau... Chemin de retour mal identifié mais on parcourt facilement la forêt.
