Automatisch importiert von Schlucht.ch für Canyon Kleine Melchaa, Wasserstand: "DC" Verankerungen: "Okay" Im oberen Abschnitt sehr viel (teils auch frisches) Holz, das teilweise stört, nach unten weniger; nur leicht rutschig; für Hochsommer eher frisch in der Schlucht. Kontakt mit KW war problemlos. (Quelle: https://schlucht.ch/schluchten-der-schweiz-liste/1005-kleine-melchaa)

Lots of relatively new timber; some of the brushwood is still unstable. But it’s easy to get past. No slides or jumps are possible at the moment. All anchors are in good condition. The staff at the power plant were very friendly and easy to deal with. (traduzione alternativa)

Beautiful canyon, but there was a lot of wood scattered about. All the anchors were in good condition. The power plant operator on the on-call phone was very friendly and deactivated the automatic flushing system. After the tour, I received a call from another employee of the power plant who thanked me for checking in and out but informed me that hiking through the canyon is no longer permitted. He sent me a statement to that effect via email. (traduzione alternativa)
